## **Notes to the Financial Statements for the financial year ended 30 June 2013**

### **1. Reporting entity**

The Scheme included in these financial statements is a registered Managed Investment Scheme under the Corporations Act 2001. The financial statements of the Scheme are for the financial year ended 30 June 2013.

### **2. Basis of preparation**

#### **2.1 Statement of compliance**

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The financial statements of the Scheme comply with International Financial Reporting Standards (IFRS) and interpretations adopted by the International Accounting Standards Board (IASB).

The financial statements were approved by the Board of Directors of the Responsible Entity on 9 September 2013.

#### **2.2 Basis of measurement**

The financial statements have been prepared on the historical cost basis except financial instruments classified as loans and receivables and receivables which are measured at amortised cost.

#### **2.3 Functional and presentation currency**

The financial statements are presented in Australian dollars, which is the Scheme's functional currency.

#### **2.4 Use of estimates and judgements**

The preparation of the financial statements which are in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the disclosure of contingent assets and liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgement about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

#### **2.5 Going concern**

The financial statements have been prepared on a going concern basis.

#### **2.6 Changes in accounting policies**

There were no changes in the accounting policies of the Scheme during the financial year.

### **3. Significant accounting policies**

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

The Scheme has not early adopted any accounting standard.

#### **3.1 Net assets attributable to investors**

In accordance with AASB 132, investors' funds are classified as a financial liability and disclosed as such in the Statement of Financial Position, being referred to as 'Net assets attributable to investors'. Investors' holdings can be put back into the Scheme at any time for cash equal to the proportionate share of the Scheme's net asset value. The value of redeemable assets is measured at the redemption amount that is payable at the Statement of Financial Position date if investors exercised their right to put the investment back into the Scheme. Changes in the value of this financial liability are recognised in the Statement of Comprehensive Income.

---

## **Notes to the Financial Statements for the financial year ended 30 June 2013**

### **3.2 Cash and cash equivalents**

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and term deposits with an original maturity of less than 3 months.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

### **3.3 Interest income**

Interest income is recognised in the Statement of Comprehensive Income as it accrues, using the effective interest method, this also applies to premiums and discounts paid on interest bearing instruments. Interest income is recognised on a gross basis, including withholding tax, if any.

### **3.4 Expenses**

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

Interest expense may consist of early withdrawal adjustments charged to investors on withdrawal from term deposits prior to their maturity.

### **3.5 Taxation**

Under current legislation the Scheme is not subject to income tax as each investor will have absolute entitlement to the underlying term deposits held in their separate accounts. All income derived from the term deposits accrue directly to investors.

### **3.6 Receivables**

Receivables are carried at amortised cost and include amounts for accrued income.

Accrued income relates to interest income. Amounts are generally received at maturity for the 3, 6 and 12 month term deposit options, for terms greater than 12 months, interest is received annually on the anniversary start date of the term deposit and at maturity.

### **3.7 Loans and receivables**

Loans and receivables in the Statement of Financial Position comprises term deposits with an original maturity greater than 3 months. Term deposits are carried at amortised cost.

The Scheme recognises loans and receivables on the date the Scheme becomes party to the contractual agreement. Loans and receivables are derecognised when the right to receive cash flows from them expires.

Loans and receivables are initially recorded in the Statement of Financial Position at cost. The majority of the Scheme's net assets attributable to investors are loans and receivables and therefore the accounting policies relating to the valuation of loans and receivables are significant.

### **3.8 Fair value measurement**

The difference between fair value and carrying value for the Loan and receivables balance is \$124,308 (2012: \$107,539).

### **3.9 Change in net assets attributable to investors**

Accrued income not yet assessable is reflected in the Statement of Comprehensive Income as 'Change in net assets attributable to investors/Total comprehensive income'.

### **3.10 Comparative information**

Comparative figures are, where appropriate, reclassified or restated so as to be comparable with figures in the current financial year. Comparative figures are for a nine month period.

Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Scheme's preparation of the Financial Report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Scheme's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the Financial Report.

We performed the procedures to assess whether in all material respects the financial report presents fairly, in accordance with the *Corporations Act 2001* and Australian Accounting Standards, a true and fair view which is consistent with our understanding of the Scheme's financial position, and of its performance.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
