Unit prices at the end of financial year †

At the end of each financial year we await unit prices from underlying fund managers, along with the relevant tax and distribution information, before we can calculate our unit prices. The timing of when each fund manager releases prices will vary, but we expect to have all unit prices finalised by 20 July 2012.

During this period we will continue to process transactions as normal. Once the unit prices are released confirmations will be issued.

Pension annual income payment reviews will be processed once the 1 July 2012 unit prices are available. Any clients who have nominated a pension payment as a percentage of their account balance in July will have their remaining pension payments adjusted when their annual review is completed. It is anticipated that all annual reviews will be completed by the end of July.

For example:

A minimum 5% monthly payment based on account balance using 29 June prices:

Account balance = \$240,000. 5% minimum is \$12,000 per annum, i.e. \$1,000 per month

July payment will be \$1,000

A 5% minimum monthly payment based on account balance using 1 July prices:

Account balance = \$242,200. 5% minimum has increased to \$12,110 per annum.

The remaining payments will be (\$12,110 - \$1,000) ÷ 11 i.e. \$1,010 per month.

† Does not apply to PortfolioOne.
