Description

This investment option is suitable for investors seeking exposure to a diversified range of assets and who can accept some variability in returns.

Investment strategy

Diversified portfolio of assets drawn across the three broad types of investments according to the likely returns and the risk:

- Defensive assets – those which are relatively secure with low volatility such as government issued debt and cash.
- Diversifying assets – those offering higher potential returns usually with an income generating focus which assist in diversifying the portfolio's sources of return e.g. high yielding corporate bonds.
