

Investment Option Summary

ANZ Smart Choice MultiSeries 50

30 June 2024

Description

The fund is suitable for investors seeking exposure to a diversified range of asset classes and a mix of managers and who can accept some variability of returns.

Investment return objective

To provide capital growth over the medium to long term by investing in a diversified portfolio with a balanced exposure to growth and defensive assets and to achieve total returns after fees in excess of the benchmark over a rolling five-year period.

Investment strategy

The investment option gains its exposure to a diversified portfolio of investments through a mix of investment managers. The balanced nature of the investment option generally provides an equal exposure to growth assets such as property, Australian and international shares and alternative growth and defensive assets such as fixed interest, cash and alternative defensive**. A mix of passive, factor-based and active investment managers may be selected to manage the assets of the investment option providing differing yet complementary investment styles to achieve more consistent excess returns. The investment option is authorised to utilise approved derivative instruments for risk management purposes and investment efficiency. Please note that derivative instruments cannot be used to gear the investment option's exposure. The underlying managers may utilise strategies for the management of currency exposure. It is the strategy of the investment option that international currency exposure may be hedged. The investment option has the capacity to change the level and nature of any currency overlay or allocation to underlying managers to manage currency risk#.
