Financial Report Notes to the Financial Statements for the financial year ended 30 June 2022

1. Reporting entity

The Scheme included in these financial statements is a registered Managed Investment Scheme under the *Corporations Act 2001*. The financial statements of the Scheme are for the financial year ended 30 June 2022.

The financial statements were authorised for issue in accordance with a resolution of the Directors of the Responsible Entity on 6 September 2022.

2. Basis of preparation

The Statement of Financial Position is prepared on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. Balances are generally expected to be recovered or settled within twelve months, except for financial assets at fair value through profit or loss and net assets attributable to investors.

Where necessary, comparative information has been reclassified to achieve consistency in disclosure with current financial year amounts and other disclosures.

2.1 Statement of compliance

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The financial statements of the Scheme also comply with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis except financial instruments classified as term deposits and receivables which are measured at amortised cost and transaction price respectively. Refer to Note 3.2 Receivables and Note 3.7 Term deposits for further detail.

2.3 Functional and presentation currency

Items included in the Scheme's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Scheme competes for funds and is regulated. The Australian dollar is also the Scheme's presentation currency.

2.4 Use of estimates and judgements

The preparation of the financial statements which are in conformity with IFRS, requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the disclosure of contingent assets and liabilities. The estimates and associated assumptions can refer to historical experience and various other factors that are believed to be reasonable using market participant assumptions in the current market environment based on what is known and knowable at the measurement date. The results of which forms the basis of making the judgement about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

2.5 Going concern

The financial statements have been prepared on a going concern basis.

2.6 Changes in accounting policies

There were no changes in the accounting policies of the Scheme during the financial year.

2.7 New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Scheme.

**Financial Report
Notes to the Financial Statements
for the financial year ended 30 June 2022****3. Significant accounting policies**

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, unless otherwise stated.

3.1 Cash and cash equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and term deposits with an original maturity of less than 3 months.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

3.2 Receivables

The Scheme adopted AASB 9 *Financial Instruments*. Receivables are measured at transaction price and may include amounts for accrued income.

Accrued income relates to interest income. Amounts are generally received at maturity for the 3, 6 and 12 month term deposit options. For terms greater than 12 months, interest is received annually on the anniversary start date of the term deposit and at maturity.

3.3 Net assets attributable to investors

In accordance with AASB 132 *Financial Instruments: Presentation*, investors' funds are classified as a financial liability and disclosed as such in the Statement of Financial Position, being referred to as 'Net assets attributable to investors'. Investors' holdings can be put back into the Scheme at any time for cash equal to the proportionate share of the Scheme's net asset value. The value of redeemable assets is measured at the redemption amount that is payable at the Statement of Financial Position date if investors exercised their right to put the investment back into the Scheme. Changes in the value of this financial liability are recognised in the Statement of Comprehensive Income.

As stipulated within the Scheme's Constitution, investors have an absolute entitlement to the underlying term deposits, cash and receivables in their personal portfolios in the Scheme and have the right to withdraw these at any time less an early withdrawal adjustment.

3.4 Interest income

Interest income is recognised in the Statement of Comprehensive Income as it accrues, using the effective interest method.

3.5 Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

Penalty interest expense consists of early withdrawal adjustments charged to investors on withdrawal from term deposits prior to their maturity.

3.6 Taxation

Under current legislation, the Scheme is not subject to income tax as each investor will have absolute entitlement to the underlying term deposits held in their separate accounts. All income derived from the term deposits accrue directly to investors.

3.7 Term deposits

Term deposits are classified at amortised cost and disclosed in the Statement of Financial Position. Term deposits comprise of term deposits with an original maturity greater than 3 months.

The Scheme recognises term deposits on the date the Scheme becomes party to the contractual agreement. Term deposits are derecognised when the right to receive cash flows expires.

Term deposits are initially recorded in the Statement of Financial Position at cost. The majority of the Scheme's net assets attributable to investors are term deposits and therefore the accounting policies relating to the valuation of term deposits are significant.

3.8 Fair value measurement

The difference between fair value and carrying value for the Term deposits balance is immaterial.

7. Financial risk management

7.1 Introduction and overview

The Scheme is exposed to a variety of financial risks from investments in financial instruments. These risks include:

- credit risk
- liquidity risk
- market risk

This note presents information about the Scheme's exposure to each of the above risks, the Scheme's objectives, policies and processes for measuring and managing risk, and the Scheme's management of investors' funds.

7.2 Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Scheme, resulting in a financial loss to the Scheme. The main concentration of credit risk, to which the Scheme is exposed, arose from the Scheme's investments in term deposits.

7.2.1 Cash and cash equivalents

The Scheme's cash and cash equivalents and term deposits are held by Australia and New Zealand Banking Group Limited (ANZ). The credit rating of ANZ as determined by Standard & Poor's is AA- (2021: AA-) as at reporting date.

Financial Report

Notes to the Financial Statements

for the financial year ended 30 June 2022

7.2.2 Credit risk exposure

The carrying amount of cash and cash equivalents and term deposits represent the maximum exposure to credit risk.

At 30 June 2022, Management considers the probability of default to be low as ANZ, the issuers of term deposits, has a strong capability to meet its contractual obligation in the near term. As such, no loss allowance is deemed to be necessary based on 12 months expected credit loss.

7.3 Liquidity risk

Liquidity risk is the risk that the Scheme will encounter difficulty in meeting obligations arising from their financial liabilities that are settled by delivering cash or another financial asset, or that such obligations will have to be settled in a manner disadvantageous to the Scheme.

The liquidity risk is represented by Net assets attributable to investors. Management mitigates this risk by being able to call the cash and cash equivalents and term deposits at any time.

7.4 Market risk

Market risk is the risk that changes in market prices, such as interest rates, will affect the Scheme's income.

7.4.1 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of its financial instruments will fluctuate as a result of changes in market interest rates.

The Scheme is subject to minimal interest rate risk as the majority of financial instruments held are fixed rate term deposits.
